

MARINE CONSERVATION ESCAPADE

2 WEEK PROGRAM

Dive into the world of marine biology with our immersive crash course in Mauritius, designed for beginners and seasoned enthusiasts alike. This program includes a PADI Open Water diving qualification and comprehensive hands-on training in diverse research areas. Participants will also have the chance to explore the stunning natural beauty of Mauritius through off-base activities. Families are encouraged to participate together, with discounts available to make this educational adventure more accessible. Conducted entirely in-country, this intense yet rewarding experience aims to equip you with practical field techniques in a condensed timeframe all the while enjoying a vacation atmosphere.
